Rarity...

To use this section simply drag and drop any combination of RPO codes from the "Master List" on the left to either the "Including" or "Excluding" areas to the right of it. This list only includes RPO codes found on **this** vehicle. For complete rarity information with access to every RPO code, choose the [VIN Decoding Plus package](#).

HINT: Don't move all of the codes to the "Including" list. Doing so will result in a technically accurate but useless rarity calculation.

Having the only "Pearl White" vehicle with "Sales Code 30" and a "Vehicle Statement", built in "Production Week 51" does not make it "one of a kind" or rare with any value. Carefully select the option codes that have the greatest impact on actual rarity and value.
